PROJECT-I (CEUP 301)

SCHEMESETU

SMART GOVERNMENT SCHEME FINDER

Group Id- CS26015

Search 4,722 Indian government schemes and see, in English or Hindi, which ones you are eligible for.

Sr.	Student Name	Roll No.
1	**Urja Gajera**	24CS021

MENTOR / GUIDE

Dr. Jigar Sarda
CSE Dept., CSPIT

SYSTEM FLOW / ARCHITECTURE

User
React web app (English, हिन्दी)

→

Express API
Google sign-in, validation, rate limits

→

Eligibility Engine
Rule checks; unknown never excludes

→

PostgreSQL
4,722 schemes, 2,987 rule sets (Prisma)

→

Ranked Results
Match %, 100% matches first

Data pipeline: myScheme.gov.in dataset → parser (cleans text, extracts eligibility rules) → PostgreSQL.
Hindi text is made once by an AI model (Groq) with automatic quality checks, then stored.

TECHNOLOGY STACK

- Frontend: React 19, TypeScript, Vite, Tailwind CSS
- Backend / DB: Node.js, Express, Prisma, PostgreSQL
- Tools: Google OAuth, Zod, Groq AI (Hindi), Vitest (1,035 tests), GitHub Actions CI

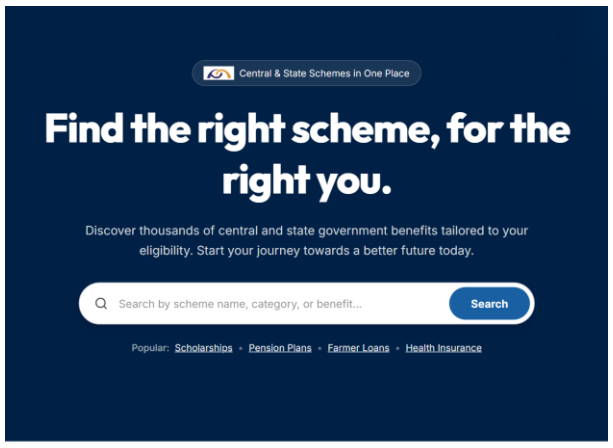

KEY FEATURES

- Eligibility check with match % and reasons, 100% matches first
- Search by 16 topics, state, age, income and occupation
- English and Hindi (Hindi labelled as machine-translated)
- Profile suggestions, bookmarks, compare up to 3 schemes

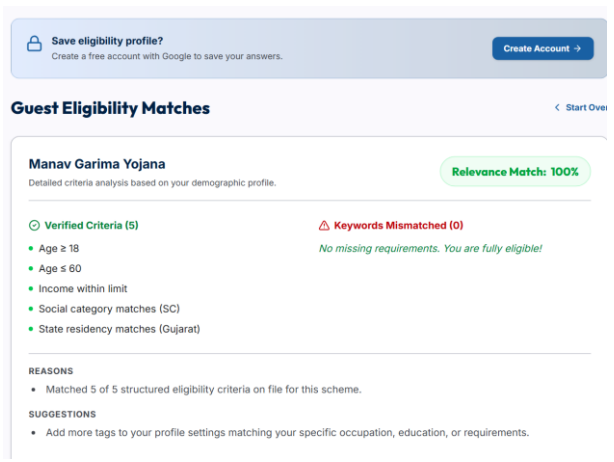

APPLICATIONS

- Citizens finding the schemes they qualify for
- Students and farmers looking for scholarships, subsidies and loans
- NGOs and CSC operators helping people apply
